German Developme

There is a lot of opinions, but few evidence-based analyses:

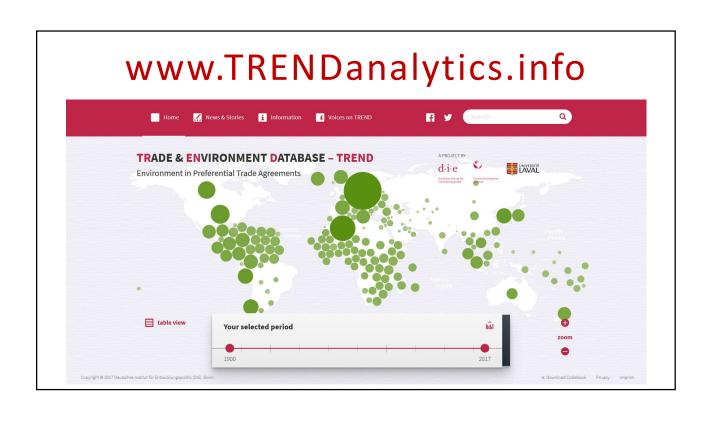

- **Negotiators** need examples of the types of clauses adopted by other countries.
- **NGOs** need a reliable source of information to hold governments accountable.
- **Entrepreneurs** need an accessible dataset to navigate through overlapping agreements.
- Lawyers need to contrast the wording of similar provisions to guide their interpretation.
- **Researchers** need fine-grained data to investigate agreements' drivers and effects.

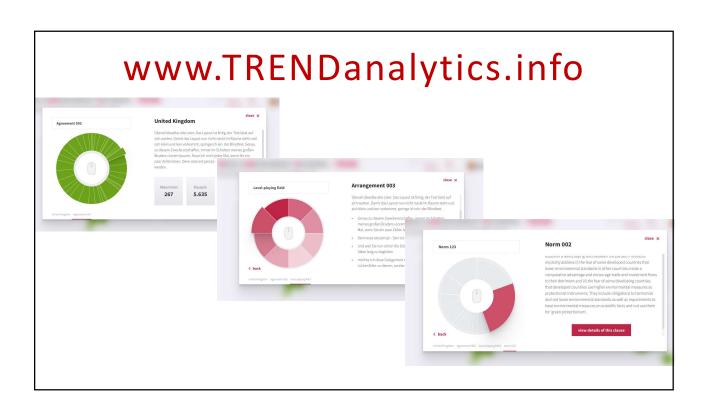

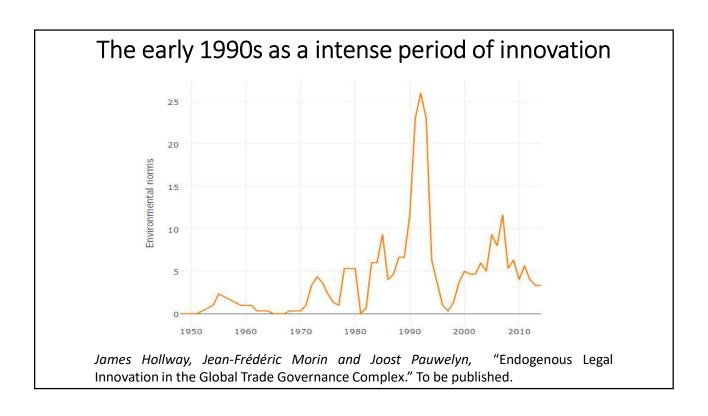

Jean-Frédéric Morin, Andreas Dür, and Lisa Lechner, "Mapping the Trade and Environment Nexus: Insights from a New Dataset". Global Environmental Politics.

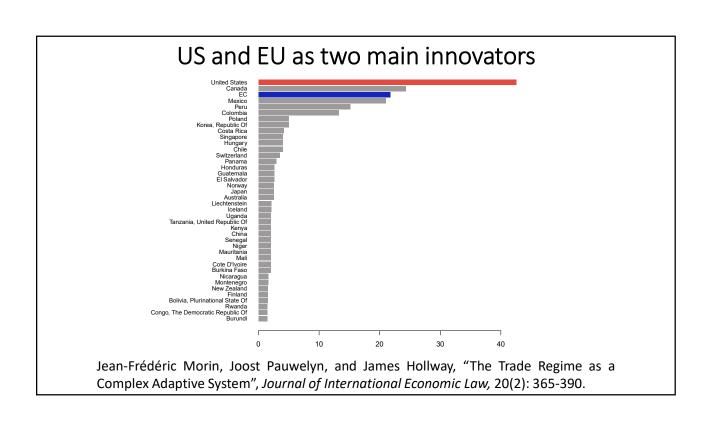

Various types of environmental provisions

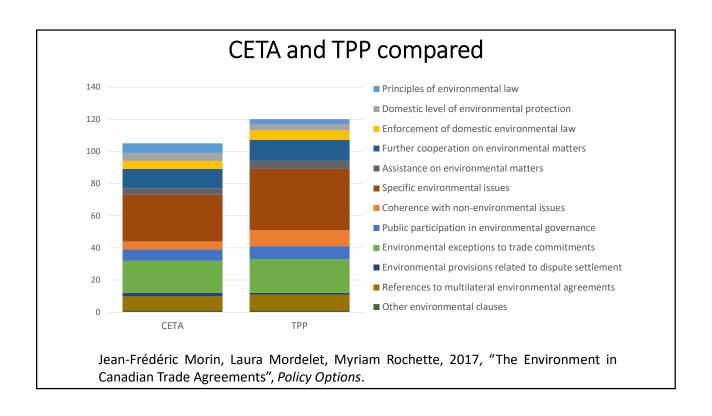

- 1. Reaffirming environmental law principles
- 2. Ensuring a high level of environmental protection
- 3. Favoring transparency and public participation in policymaking
- 4. Safeguarding regulatory space
- 5. Developing environmental cooperation
- 6. Detailing specific environmental commitments
- 7. Ensuring policy coherence
- 8. Promoting development and capacity building
- 9. Reinforcing MEAs
- 10. Dispute resolution

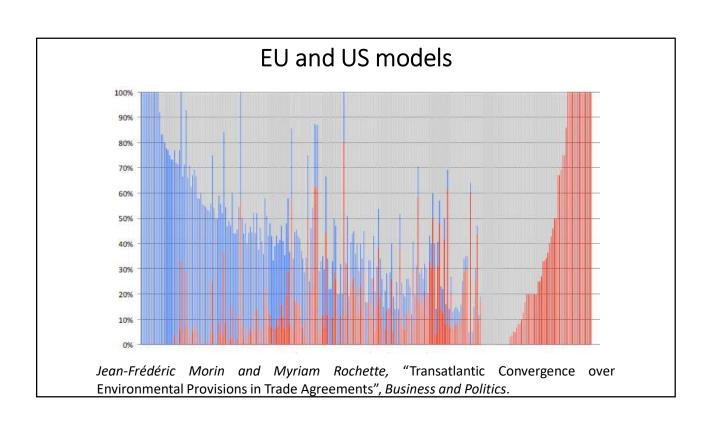

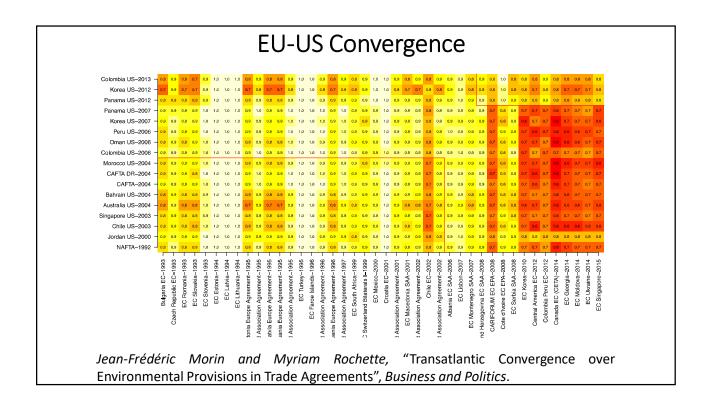

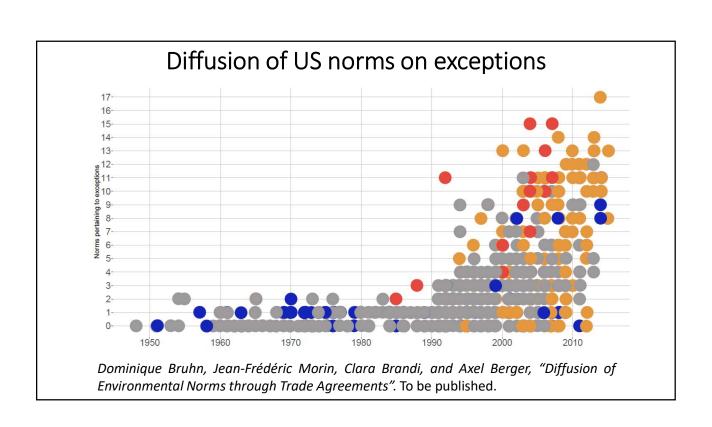

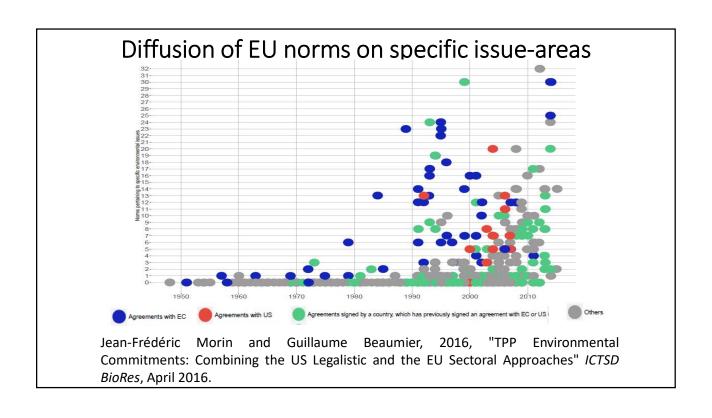

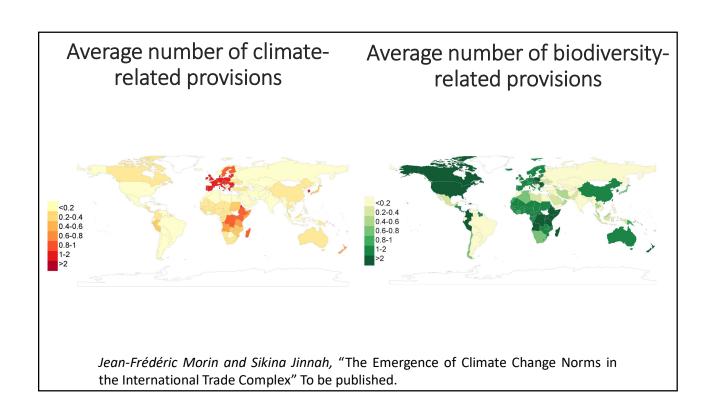

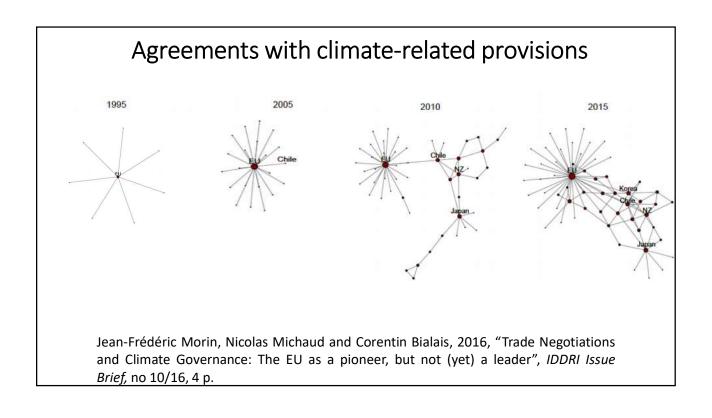

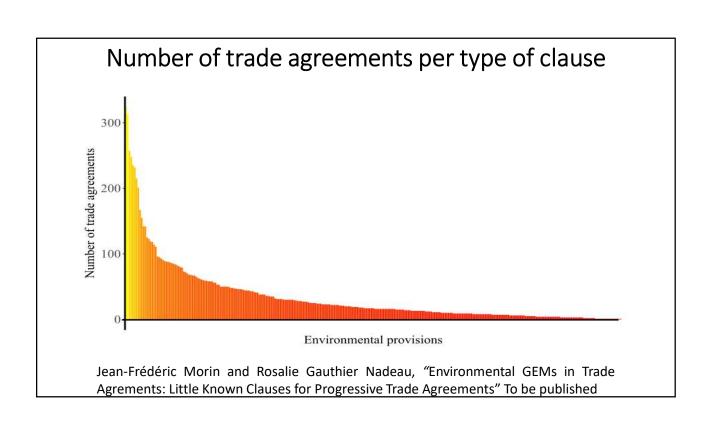

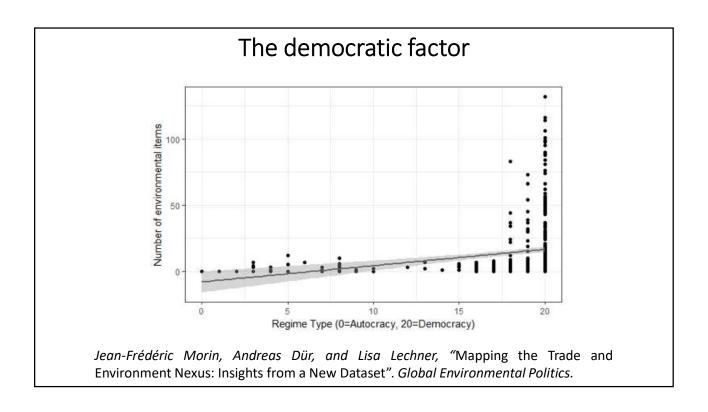

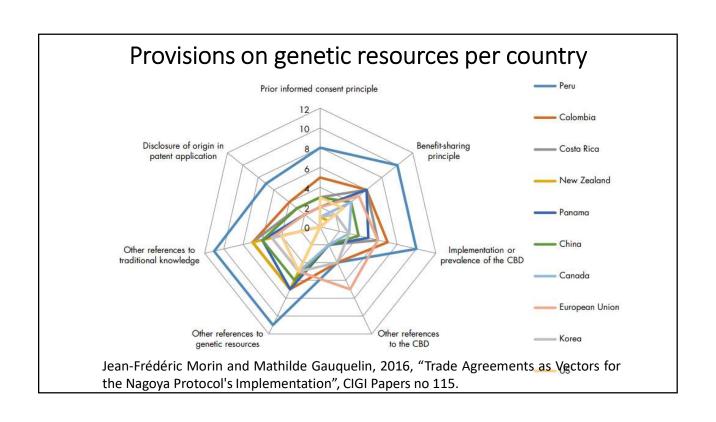

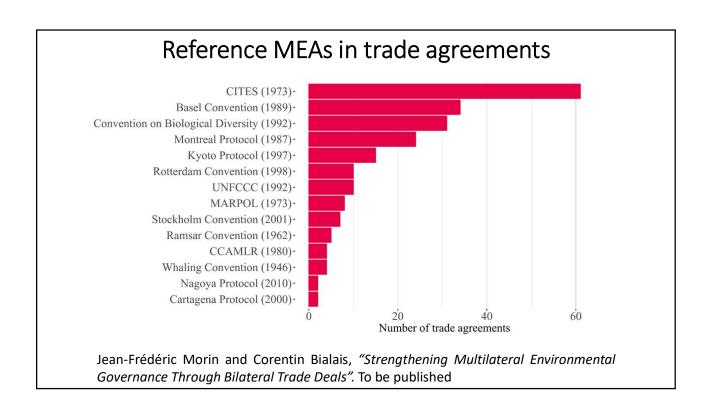

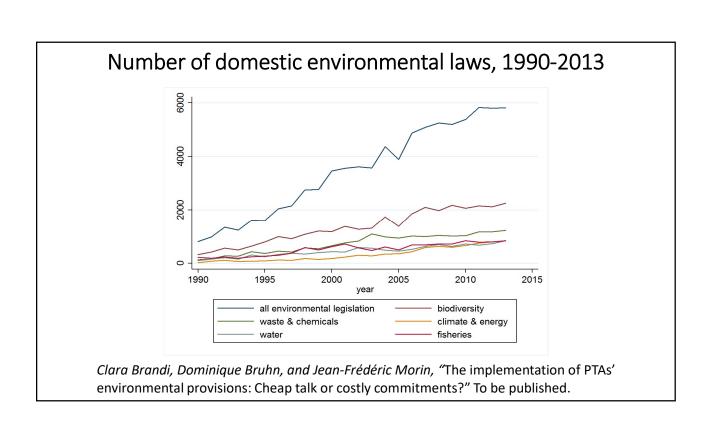

Good candidates for multilateralization

Cooperation shall include coordination with respect to multilateral negotiations on environmental issues. Developed country parties shall provide capacity building to developing countries parties. O. Cooperation shall focus on the management of hazardous waste. Cooperation shall include development of strategies to execute environmental impact assessment; Each Party shall promote the development of voluntary environmental measures; O. Cooperation shall focus on the promotion of renewable production of energy; Each Party shall promote public awareness by ensuring the availability of information to stakeholders; Parties shall incorporate environmental considerations in any policy measure. Cooperation shall focus on the promotion of energy efficiency; O. Cooperation shall focus on the control and prevention of marine pollution; Cooperation shall focus on the conservation of the fisheries resources; O. To achieve this cooperation, representatives of the Parties may meet regulatory. D. Each Party shall promote trade of environmental goods and services. The Parties shall resolve their dispute through consultations. The Parties shall engage the public in activities undertaken to implement this Agreement. D. The Parties has the right to establish their own levels of environmental protection. D. Parties shall endeavor to improve coherence between environmental protection. Cooperation shall focus on the protection of forests; Each Party shall endeavor to ontinue to improve their environmental laws. Cooperation shall include process for harmonizing environmental and transportation policy A Party shall not fail to effectively enforce its environmental laws.	The parties shall cooperate in the field of environmental protection.	0.02
Developed country parties shall provide capacity building to developing countries parties. Cooperation shall focus on the management of hazardous waste. Cooperation shall include development of strategies to execute environmental impact assessment; Each Party shall promote the development of voluntary environmental measures; Cooperation shall focus on the promotion of renewable production of energy; Each Party shall promote public awareness by ensuring the availability of information to stakeholders; Parties shall incorporate environmental considerations in any policy measure. Cooperation shall focus on the promotion of energy efficiency; Cooperation shall focus on the control and prevention of marine pollution; Cooperation shall focus on the conservation of the fisheries resources; Coachieve this cooperation, representatives of the Parties may meet regulatory. Cach Party shall promote trade of environmental goods and services. Darties shall resolve their dispute through consultations.
